

Mr. Mohammed CHERRAT serves as a President of the Mineral Industry Federation (FDIM). He holds more than 40 years of experience in operations management, industrial project management and HR management in the Mining, Energy and Water fields.

He was a member of the Management Committee at Managem Group for more than 20 years where he held several leadership positions, the last one in operational responsibilities and support services.

Mr. CHERRAT holds a Master degree in Mining Engineering since 1983 from the Mohammedia School of Engineering.

He is currently an active member of several organisations and councils among which the Council of Occupational Medicine and Prevention of Professional Risks, the Canadian Institute of Mining, Metallurgy and Petroleum, and the Magellan Circle (Association of HR Directors at the international level for the exchange of good practices).
